Strategic Report

The directors present their Strategic Report for the year ended 31 December 2017.

Principal activities

Acteon Group Ltd is a global subsea services organisation. The Group comprises a number of industry-leading brands, which are principally focused on those aspects of offshore oil and gas development and operations which link wells on the seabed with facilities on the surface.

The Group has outstanding engineering skills in the areas in which it operates and regularly achieves industry “firsts”. It employs approximately 1,500 people, most with technical skills, from its facilities in Europe, the Middle East, Africa, the Americas and the Far East.

Acteon companies are involved at every stage in the life of an oilfield, from initial exploration through to development, operations, maintenance and decommissioning. The Group offers very broad capability, undertaking concept studies and analysis, front-end engineering and detailed design work, manufacturing/construction activity and offshore execution. Though the Group focuses primarily on oil and gas, it has increasing involvement in renewables, including wind power, and near-shore civil construction relating to bridges and port facilities.

Acteon provides a range of subsea services, across the following capabilities:

- Risers and Moorings
- Seabed Foundation Technologies
- Survey, Monitoring and Data
- Project Support Services

Business model

Acteon is a leading provider of subsea services to the worldwide offshore oil and gas industry. Its principal clients are international, national and independent oil and gas companies and contractors in most of the major oil and gas provinces in the world. Its services cover the entire life-cycle of an oil or gas field and its facilities, including exploration, design, build, installation, integrity management and decommissioning.

Acteon offers its services through its individual operating companies and utilises their collective capabilities in serving its clients. The principal skills and technologies within the Group are listed below:

Risers and Moorings

Acteon has world-leading riser capability and is also a leader in temporary and permanent moorings. It has the largest global inventory of offshore mooring and specialist rental equipment. The Group offers innovative design, supply, installation, relocation and decommissioning solutions for risers and moorings, and employs the world's largest pool of experienced engineers and analysts to support multiple shallow and deep water projects, globally.

InterMoor specialises in mooring systems for floating drilling and production facilities. It offers sale, rental and management of mooring equipment. The company also provides relocation services for mobile offshore drilling rigs and FPSOs, and subsea well abandonment services.

2H Offshore focuses on shallow and deep water riser projects with a full complement of design, supply, monitoring and integrity management capabilities.

Claxton supplies structural equipment and services for well construction, workover, maintenance and abandonment operations. These include pressure control and remediation, conductor tensioning and rigless tubular retrieval.

Probe Oil Tools provides bespoke high-specification pressure control equipment including wellheads, flanges, tension rings and surface risers.

Subsea Riser Products designs and supplies specialist components for subsea riser systems.

Strategic Report *(continued)*

Seabed Foundation Technologies

Acteon has outstanding expertise in drilling, hammering, piling and grouting, offering a full range of solutions, from design to installation. It can provide temporary and permanent seabed support structures. In addition to its capability in pile and conductor solutions, the Group offers a wide range of hammers for sale or rental, specialist fabrication in multiple regions and highly experienced operational personnel.

MENCK manages all aspects of complex piling projects for customers, not only in the oil and gas sector but also in the civil engineering and renewables sectors. The company designs, manufactures and rents out some of the world's most sophisticated pile-driving hammers.

Large Diameter Drilling is an offshore drilling and specialist marine construction contractor. It designs, engineers, builds and operates pile-installation equipment to establish tubular foundations.

LM Handling provides comprehensive lifting and handling services for offshore piling and subsea construction projects, both by utilising its existing equipment pool and by developing bespoke equipment, where necessary, to suit specific project needs.

Conductor Installation Services provides complete project services for conductor installations.

Survey, Monitoring and Data

Acteon is a leading provider of subsea electronics and remotely operated vehicle (ROV) tooling, offering asset integrity management and comprehensive survey capabilities. The Group also supports its clients with data hosting, data management and information interpretation.

UTEC Survey provides marine and facilities survey and data management services.

Seatrionics specialises in the rental of subsea electronic equipment and ancillary services.

J2 Subsea provides rental and servicing of tooling for subsea ROVs.

Pulse Structural Monitoring designs, supplies and installs monitoring systems (both instrumentation and software), and provides data processing and recorded data management services.

Clarus Subsea Integrity utilises efficient integrity management processes in order to provide operators with clear information about the condition and performance capabilities of offshore assets.

Project Support Services

From specialist equipment to manpower provision, Acteon's project support services businesses successfully deliver advanced, innovative solutions around the world. The Group provides flexible pipe lay solutions, in addition to specialist installation and decommissioning services.

Aquatic supplies a range of powered reel systems which are deployed by clients for flexible pipe and umbilical lay.

Team is an international provider of specialist personnel and recruitment consultancy services.

InterAct provides project management engineering and permitting services to oil industry clients.

Additionally, a recent initiative, **Acteon Field Life Service**, brings together the specialist skills and technologies of Acteon's individual branded service companies in order to address larger and more complex client projects and lead them at a group level, with a particular focus on participating in increased shares of risk and reward by offering new business models and a partnership approach.

Business review and results

2017 saw a continuation in the recovery of the price of crude oil following a lengthy period of considerable weakness which started in the second half of 2014. While Brent Crude (spot) had averaged \$109 per barrel across the first half of 2014, by the end of that year it had declined to approximately \$48. 2015 initially saw a modest price recovery but this was followed by a further decline, to \$36.

Strategic Report *(continued)*

Business review and results *(continued)*

During 2016 Brent was predominantly in the \$45 to \$50 range, ending the year at \$53, and 2017 saw the price typically in the \$45 to \$64 range, ending at a high of \$64.

As reported previously, this sustained period of materially lower – though improving of late – crude oil prices has resulted in significant changes in the investment plans and activity levels of oil and gas companies in order to conserve cash and support profit margins, with a consequent impact on the Group's activity levels.

The Group's financial performance in 2017 reflects the continued impact of weak crude oil prices, with revenues reducing by 15.7% to £296.2m and profit from operating activities before impairment losses reducing from £17.6m to a loss of £4.4m.

Acquisitions and disposals in the year

Despite the continuation of challenging trading conditions during the year, the Group continued to seek opportunities to expand its services. In December 2017 it increased the geographical reach and equipment fleet of its Mooring operations by acquiring three companies, Viking Seatech Ltd, Viking Seatech (Australia) Pty Ltd and PT Viking Seatech Indonesia, based in the United Kingdom, Australia and Indonesia respectively, and via the purchase of equipment from the Viking companies based in Norway and Singapore. These transactions complement the Group's offerings within its existing moorings segment.

In December 2017 the Group divested its interest in Mirage Machines Ltd and certain assets of Mirage Subsea Inc.

Financial performance

The financial performance of the Group's operations for 2017 compared with 2016 can be summarised as follows:

	2017	2016	Increase/ (Decrease)
	£000	£000	%
Group revenue	296,199	351,250	(15.7%)
	<hr/>	<hr/>	
Earnings before interest, tax, depreciation and amortisation (EBITDA)	34,201	60,972	(43.9%)
Depreciation and amortisation	(38,630)	(43,353)	
	<hr/>	<hr/>	
(Loss)/profit from operating activities before impairment losses	(4,429)	17,619	(125.1%)
Impairment losses	-	(4,492)	
	<hr/>	<hr/>	
(Loss)/profit from operating activities	(4,429)	13,127	
	<hr/>	<hr/>	
	2017	2016	Increase/ (Decrease)
	£000	£000	%
Loss before exceptional items, impairment losses and income tax	(14,836)	(4,516)	(228.5%)
Impairment losses	-	(4,492)	
Exceptional subsidiary acquisition/disposal credits	13,635	-	
Exceptional finance expense	(222)	-	
	<hr/>	<hr/>	
Loss before income tax	(1,423)	(9,008)	84.2%
	<hr/>	<hr/>	

Strategic Report *(continued)*

Key performance indicators

Further key performance indicators pertinent to the Group's continuing operations are shown below. These demonstrate the underlying operational performance (gross margin and EBITDA), and also the level of sustained investment in the Group's underlying revenue-generating resources (fixed assets and number of employees).

	2017	2016
Financial		
Gross margin % of revenues	26.8%	32.4%
Adjusted earnings before interest, tax, depreciation and amortisation (£000s)*	38,560	67,503
Net book value of property, plant and equipment (£000s)	156,899	173,092
* prior to impairments of goodwill, other intangibles and tangible assets and certain costs totalling £4,359,000 (2016: £6,531,000) of a non-operating nature.		
Non-financial		
Average number of employees	1,567	1,821
Number of employees at the year-end	1,493	1,584

Principal risks and uncertainties

The Group's multinational operations and debt financing expose it to a variety of risks, including financial risks. The Group has in place risk management policies that seek to limit the adverse effects of these risks on the financial performance of the Group. The Board of Directors has overall responsibility for the creation and oversight of the Group's risk management framework. The Group's approach to financial risk management is disclosed in note 4.

The directors have taken steps to ensure that the day-to-day risks which face the Group, such as health and safety and commercial risks, are managed comprehensively by the management teams of its operating companies (with appropriate central oversight), by insurance covers which should mitigate the impact of risks turning into reality, and by the preparation and review of comprehensive monthly management financial reporting packages which can alert the board to developments in trading performance and cash position.

Any business operates against a background of risks and uncertainties. The directors believe that the principal operational risks facing Acteon are:

- A further reduction in activity levels in the offshore oil and gas exploration and production industry worldwide, as a result of various factors including, but not limited to, a fall in oil prices.
- Lead times and availability of raw materials and components which are required in order for the Group to provide its products and services could deteriorate from their current levels.
- It could become more difficult to recruit and retain the highly qualified and experienced staff required in order for the Group to carry on its business.
- The considerable health and safety risks which are inherent to the offshore oil and gas industry.
- Contracts and projects in the oil and gas sector are frequently complex, and there are risks associated with their execution.

Strategic Report *(continued)*

Future developments

Since the end of 2017, the Brent crude oil price has averaged \$68 per barrel, with one end-of-week observation slightly above \$70. These higher prices, along with a generally better level of price stability, helps to create an environment in which oil exploration and production companies can plan their activities for both operational expenditure and their investment programmes. As a result of this, the directors believe that Acteon will see a return to revenue and earnings growth during 2018.

The Group's forecasts and projections, and sensitivity analyses thereof, show that the Group has sufficient financial resources for the foreseeable future, is well-placed to manage its business and financial risks, and will comply with the covenants attaching to its financing facilities. The directors therefore continue to adopt the going concern basis of accounting in preparing the annual financial statements.

The Group will continue to undertake measures to optimise its trading performance in these slightly improving markets, to protect its margins, profitability and cash flow, while seeking to retain and augment the capabilities and skills which will be necessary when higher activity levels arise.

By order of the board

R C Higham
Director

22 March 2018

Directors' Report

The directors note that, as a result of the Strategic Report and Directors' Report regulations of 2013 (which are amendments to the Companies Act 2006), some of the matters which would previously have been contained within the Directors' Report must (along with certain other reporting) appear within the separate Strategic Report. This Directors' Report therefore contains the remaining information required by statute to be disclosed.

Research and development

The Group continues to believe in the importance of investing in innovation and in the development of its products and services, in order to achieve technical success and to improve project economics for clients. During the year Acteon has continued to invest in several research and development areas.

Proposed dividend

No dividend is to be recommended in respect of 2017 (2016: £nil).

Directors

The directors who served during the year were:

R C Higham
K F Ovenden

The directors benefited from qualifying third party indemnity provisions which were in place during the financial year and at the date of this report. These took the form of Directors and Officers liability insurance.

Employees

The Group is committed to involving employees in the business through appropriate communication and consultation and does so through circulating internal newsletters and periodic briefing meetings.

Applications for employment by disabled persons are always fully considered, having regard to the aptitude and abilities of applicants. If employees become disabled every effort is made to ensure the continuation of their employment with the Group, including the provision of appropriate training. The Group intends that, as far as possible, the training, career development and promotion of a disabled person should be identical to that of a person who does not suffer from a disability.

Political contributions

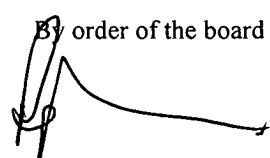

Neither the Company nor any of its subsidiaries made any political donations or incurred any political expenditure during the year (2016: £nil).

Disclosure of information to auditor

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditor is unaware. Each director has taken all the steps that he ought to have taken as a director to make himself aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Auditor

Pursuant to Section 487 of the Companies Act 2006, the auditor will be deemed to be reappointed and KPMG LLP will therefore continue in office.

By order of the board

R C Higham
Director

22 March 2018

Statement of directors' responsibilities in respect of the Strategic Report, Directors' Report and the financial statements

The directors are responsible for preparing the Strategic Report, the Directors' Report and the Group and parent company financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare group and parent company financial statements for each financial year. Under that law they have elected to prepare the Group financial statements in accordance with International Financial Reporting Standards as adopted by the European Union (IFRSs as adopted by the EU) and applicable law and have elected to prepare the parent company financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 101 *Reduced Disclosure Framework*.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Group and parent company and of their profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable, relevant, reliable and prudent;
- for the group financial statements, state whether they have been prepared in accordance with IFRSs as adopted by the EU;
- for the parent company financial statements, state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Group or the parent company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They are responsible for such internal controls as they determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Group and to prevent and detect fraud and other irregularities.

Independent auditor's report to the members of Acteon Group Limited

Opinion

We have audited the financial statements of Acteon Group Limited ("the company") for the year ended 31 December 2017 which comprise the Consolidated Income Statement, Consolidated Statement of Comprehensive Income, Consolidated Statement of Financial Position (Balance Sheet), Consolidated Statement of Changes in Equity, Consolidated Statement of Cash Flow, Company balance sheet and related notes, including the accounting policies in notes 3 and 31.

In our opinion:

- the financial statements give a true and fair view of the state of the Group's and of the parent company's affairs as at 31 December 2017 and of the Group's loss for the year then ended;
- the group financial statements have been properly prepared in accordance with International Financial Reporting Standards as adopted by the European Union;
- the parent company financial statements have been properly prepared in accordance with UK accounting standards, including FRS 101 *Reduced Disclosure Framework*; and
- the financial statements have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the Group in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

Strategic Report and Directors' Report

The directors are responsible for the Strategic Report and the Directors' Report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the Strategic Report and the Directors' Report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the Strategic Report and the Directors' Report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- in our opinion those reports have been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

Directors' responsibilities

As explained more fully in their statement set out on page 7, the directors are responsible for: the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the group and parent company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Group or the parent company or to cease operations, or have no realistic alternative but to do so.

Independent auditor's report to the members of Acteon Group Limited (continued)

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Cash and cash equivalents at 31 December			

The notes on pages 15 to 57 are an integral part of these consolidated financial statements.

Notes

(forming part of the financial statements)

1 Group and company accounts

Acteon Group Ltd is a company incorporated in England. The address of its registered office is Ferryside, Ferry Road, Norwich, Norfolk, NR1 1SW. The consolidated financial statements of the Group as at and for the year ended 31 December 2017 comprise the parent company and its subsidiaries (together referred to as "the Group"). The Group is primarily involved in the provision of specialist subsea products and services to the offshore oil and gas industry. The financial statements of the parent company are set out on pages 58 to 75.

2 Basis of preparation of financial statements

The consolidated financial statements consolidate those of the parent company and its subsidiaries (together referred to as the "Group"). The parent company financial statements present information about the Company as a separate entity and not about its Group.

The consolidated financial statements have been prepared and approved by the directors in accordance with International Financial Reporting Standards as adopted by the EU ("Adopted IFRS"). The Company has elected to prepare its parent company financial statements in accordance with UK GAAP, including FRS 101 *Reduced Disclosure Framework*.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these consolidated financial statements.

(a) Statement of compliance

The consolidated financial statements have been prepared in accordance with Adopted IFRS and were approved by the Board of Directors on 22 March 2018.

(b) Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis except for certain financial instruments and available-for-sale financial assets, which are stated at fair value. Any changes in fair value are reflected in the income statement.

The methods used to measure fair values are discussed further below.

(c) Functional and presentation currency

These consolidated financial statements are presented in Sterling, which is the Company's functional currency. All financial information presented has been rounded to the nearest £1,000.

(d) Use of estimates and judgements

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on a regular basis. Revisions to accounting estimates are reflected in the period in which the estimates are revised and in any future periods which are affected by those revisions.

Information relating to areas of estimation, uncertainty and critical judgements in applying accounting policies that have significant effects on the amounts recognised in the financial statements is included in the following notes:

Note 5 – business combinations

Note 15 – measurement of the recoverable amounts relating to cash-generating units containing goodwill

Note 25 – valuation of financial instruments

Notes *(continued)*

2 Basis of preparation of financial statements *(continued)*

(e) Going concern

The Group's business activities and financial position, together with the factors likely to affect its future development and performance, are set out in the Strategic Report on pages 1 to 5. Note 4 to the financial statements also discloses the objectives, policies and processes for managing the financial risks to which the Group is exposed. These include foreign exchange risk, cash flow and fair value interest rate risk, credit risk, liquidity risk and capital risk.

The Group's forecasts and projections, and sensitivity analyses thereof, show that the Group has sufficient financial resources for the foreseeable future, is well-placed to manage its business and financial risks, and will comply with covenants relating to its financing facilities. The directors therefore continue to adopt the going concern basis of accounting in preparing the annual consolidated financial statements.

3 Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by the Group.

Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, voting rights that are currently exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. The accounting policies of subsidiaries have been aligned, where necessary, with the policies adopted by the Group.

(ii) Transactions and balances eliminated on consolidation

Intra-Group transactions and balances, and any unrealised income and expenses arising from intra-Group transactions, are eliminated in preparing the consolidated financial statements. Unrealised gains arising from transactions with equity-accounted investees are eliminated against the investment to the extent of the Group's interest in the investee.

Revenue recognition

Revenue comprises the value of goods and services supplied by the Group in the normal course of business, net of trade discounts and sales taxes. Revenue is recognised when the significant risks and rewards of ownership have been transferred to the customer, it is probable that the economic benefits associated with a transaction will flow to the Group and the amount of revenue can be measured reliably. Transfers of risks and rewards vary depending on the individual terms of contracts of sale.

(i) Sale of equipment and other goods

Revenue is recognised when the goods are delivered to the customer, at the contractually agreed delivery location.

(ii) Rendering of services

The Group recognises revenue in line with the fulfilment of its contractual obligations. In most cases relating to the supply of services, this represents the fulfilment of all obligations contained in the contract. In certain circumstances specific elements of the total income relating to a contract are recognised where completion of these elements (by reference to contractual trigger points) entitles the Group to the income. Where the rendering of services includes rental income, the rental income element is recognised on a straight-line basis over the period of the rental contract.

(iii) Long-term contracts

Revenue and profits on long-term contracts are recognised in line with the stage of a contract's completion when the outcome of the contract can be estimated reliably. Full provision is made for any anticipated losses.

Notes (continued)

3 Significant accounting policies (continued)

Intangible fixed assets

Goodwill

Goodwill arises on the acquisition of subsidiaries and is subject to an annual impairment review.

Goodwill arising on these acquisitions represents the difference between the fair value of the purchase consideration and the fair value of the Group's share of the identifiable net assets of the acquired entity. Directly attributable costs of executing the acquisitions are charged to the income statement in accordance with IFRS 3 (revised), *Business Combinations*.

Goodwill is not subject to amortisation but is reviewed for impairment at the end of the first full financial year following the acquisition and annually thereafter. It is also reviewed at other points if events or changes in circumstances indicate that the carrying value may not be recoverable. Goodwill is stated at cost less accumulated impairment losses.

For the purpose of impairment testing, goodwill is allocated to the cash-generating unit in respect of which the goodwill arose. Impairment is determined by assessing the ability of the cash-generating units to generate future cash flows and comparison of the resulting values with the respective goodwill balances. Impairment losses in respect of goodwill are not reversed.

Negative goodwill on acquisitions is immediately recognised in the income statement.

Order books and customer lists

Order books and customer lists are recognised as intangible assets at their fair value on acquisition. The fair value is determined by discounting the future cash flows expected to be generated from them at an appropriate market-related discount rate. Amortisation is provided in order to write off the cost over the expected economic lives of the assets in equal instalments. The residual values are assumed to be nil.

Economic lives for intangible assets have been established as:

Order books	Typically less than one year
Customer lists	10 years

All intangible assets are reviewed annually for possible impairment, or more regularly if conditions exist that indicate a review is required.

Computer software

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful life, which is typically 3-5 years.

Research and development

Expenditure on research activities is recognised in the income statement as the costs are incurred.

Expenditure on development activities is capitalised where: the process or final product is considered to be technically and commercially feasible; and, the Group intends, (and has the technical ability and sufficient resources) to complete the development; and, future economic benefits are probable; and, the expenditure attributable to the asset during its development can be measured reliably. Development activities involve a plan or design of the production of new or substantially improved products or processes.

Expenditure which is capitalised includes the cost of materials, direct labour and an appropriate proportion of overheads. Capitalised development expenditure is stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged on a straight-line basis over estimated useful lives, typically ranging between 5-10 years.

Other development expenditure is recognised in the income statement as the costs are incurred.

Notes *(continued)*

3 Significant accounting policies *(continued)*

Tangible fixed assets

(i) Recognition and measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The cost of property, plant and equipment at the Group's IFRS transition date was determined by reference to its depreciated cost as at that date.

Cost comprises the purchase price or construction cost and any costs directly attributable to making the asset capable of operating as intended, in the intended location. The purchase price or construction cost is the aggregate amount paid and the fair value of any other consideration given in order to acquire the asset.

When elements of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Gains and losses on disposals of property, plant and equipment, other than those held for rental to clients, are determined by comparing the proceeds from disposal with the corresponding carrying amounts and are recognised net within other income in the income statement. Where items are sold from the rental fleet, the sale proceeds are reflected in revenue and the remaining net book value is charged to cost of sales.

(ii) Depreciation

Depreciation is calculated on a straight-line basis to allocate the cost less residual values to the income statement over the estimated useful lives of each asset. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Land is not depreciated.

The estimated useful lives are as follows:

Buildings	30-50 years
Fixtures, fittings and computer equipment	2-10 years
Motor vehicles	2-4 years
Plant and equipment	3-15 years

Improvements to leasehold premises are depreciated over the primary period of the leases to which the improvements relate.

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

Inventory

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a first-in-first-out basis, and includes all direct costs incurred and attributable production overheads. Net realisable value is based on estimated selling price less all further costs of completion and disposal.

The Group makes provisions for impairment, where appropriate, based on an assessment of excess and obsolete inventories.

Costs in relation to partially complete projects are treated as work in progress to the extent that the revenue relating to those projects is unrecognised at the balance sheet date.

Foreign currencies

(i) Transactions and balances

Transactions denominated in foreign currencies are translated and recorded at exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates ruling at each balance sheet date. Gains and losses on retranslation are recognised in the income statement for the year.

Notes *(continued)*

3 Significant accounting policies *(continued)*

Foreign currencies *(continued)*

(ii) Subsidiaries

The results and financial position of all subsidiaries that have a functional currency other than Sterling are translated into Sterling as follows:

- assets and liabilities for each balance sheet presented are translated at rates ruling at the balance sheet date;
- income and expenses for each income statement are translated at average exchange rates; and
- resulting exchange differences are recognised directly in equity in a separate foreign currency translation reserve (FCTR) in the consolidated balance sheet.

When a foreign subsidiary is disposed of, the portion of the FCTR relating to that subsidiary is required to be included as part of the calculation of profit or loss on the sale.

Employee benefits

(i) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in the income statement when they are due. The overwhelming majority of the Group's employees participate in plans of this nature.

(ii) Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group operates three defined benefit schemes as follows:

Two defined benefit schemes exist in respect of employees of its German subsidiary, MENCK GmbH, in which there are 168 participants. Of these, 5 participate in a final salary scheme and the remaining 163 participate in a scheme which provides very modest benefits: these are determined by length of service rather than being linked to salary.

A further defined benefit scheme, in respect of employees of its Norwegian subsidiary, InterMoor AS (formerly IOS InterMoor AS), in which there are 22 participants. Benefits are determined by salary levels and length of service.

Amounts charged to operating profit in relation to the schemes are the current service costs and gains and losses on settlements and curtailments. They are included as part of staff costs. Past service costs are recognised in the income statement at the earlier of the recognition of related restructuring costs and termination benefits and when the plan amendment occurs. The net interest on the net defined benefit liability is shown in the income statement under finance expense.

Pension scheme liabilities are measured on an actuarial basis using the projected unit method and discounted at a rate equivalent to the current rate of return on a high-quality corporate bond of equivalent currency and term to the scheme liabilities. Plan assets are valued at fair value and deducted from the pension scheme liabilities. Actuarial valuations are obtained at least triennially, with updates at intervening balance sheet dates. The resulting net defined benefit asset or liability is presented separately on the face of the balance sheet.

The Group recognises all actuarial gains and losses arising from defined benefit plans directly in equity.

(iii) Short-term benefits

Short-term employee benefit obligations such as annual performance bonuses are measured on an undiscounted basis and are expensed as the related service is provided. A liability is recognised for the amount expected to be paid as a short-term benefit if the Group has a present legal or constructive obligation to pay this benefit as a result of past service provided by the employee and the amount of the obligation can be measured reliably.

Notes (continued)

3 Significant accounting policies (continued)

Leasing

Finance leases are those where substantially all of the benefits and risks of ownership are assumed by the Group. Assets obtained under hire purchase contracts and finance leases are capitalised as tangible fixed assets at the lower of fair value and the present value of the minimum future lease payments. Assets acquired under finance leases are depreciated over the shorter of the lease term and their useful lives. Assets acquired under hire purchase agreements are depreciated over their useful lives. Obligations under such agreements are included in liabilities net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the income statement so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Rentals payable in respect of operating leases are charged to the income statement on a straight-line basis over the term of the relevant lease.

Financial Instruments

(i) Non-derivative financial instruments

Non-derivative financial instruments comprise investments in trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

Cash and cash equivalents comprise cash balances and call deposits. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Non-derivative financial instruments are measured at amortised cost using the effective interest method, less any impairment losses.

(ii) Derivative financial instruments

Derivative financial instruments are recognised at fair value. Any gain or loss arising in arriving at fair value is recognised immediately in the income statement.

(iii) Ordinary shares

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares and share options are recognised as a deduction from equity, net of any tax effects.

Impairment

(i) Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it may be impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

An impairment loss in respect of a financial asset measured at amortised cost is calculated as the difference between its carrying amount and the present value of the estimated discounted future cash flows. All impairment losses on financial assets measured at amortised cost are recognised in the income statement.

An impairment loss is only reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognised.

(ii) Non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill has an indefinite life and the recoverable amount is estimated at each reporting date.

Notes *(continued)*

3 Significant accounting policies *(continued)*

Impairment *(continued)*

(ii) Non-financial assets *(continued)*

The Group's approach to impairment testing in relation to goodwill and intangible assets is discussed in the Goodwill section above.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in the income statement.

Income tax

Income tax comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current income tax liabilities and assets for the current and prior periods are measured at the amount expected to be paid to, or recovered from, the taxation authorities. Taxable profit or loss differs from that reported in the income statement because it excludes items of income or expense that are taxable or deductible in later years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred income tax is recognised on all temporary differences at the balance sheet date between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, with the following exceptions:

- where the temporary difference arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination that, at the time of the transaction, affects neither accounting nor taxable profit or loss;
- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future; and
- deferred income tax assets are recognised only to the extent that it is probable that a taxable profit will be available against which the deductible temporary differences, carried forward tax credits or tax losses can be utilised.

Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax liabilities and assets are measured on an undiscounted basis at the tax rates that are expected to apply when the liability is settled or the asset is realised, based on tax rates and tax laws enacted or substantively enacted at the balance sheet date.

Current and deferred income tax is charged or credited directly to equity if it relates to items that are credited or charged to equity. Otherwise, income tax is recognised in the income statement.

Assets held for sale

Non-current assets are classified as held for sale if it is highly probable that their carrying value will be realised primarily through sale rather than through continuing use.

Such assets are measured at the lower of their carrying amount and fair value less cost of disposal. Impairment losses on initial classification as held for sale and subsequent gains and losses on re-measurement are recognised in the income statement. Once classified as held for sale, intangible assets and tangible fixed assets are not amortised or depreciated.

Notes *(continued)*

3 Significant accounting policies *(continued)*

Discontinued operations

A discontinued operation is a component of the Group's business, the operations and cash flows of which can be clearly distinguished from the rest of the Group and which represents a separate major line of business or geographical area of operations that has been disposed of or is held for sale. Classification as a discontinued operation occurs at the earlier of disposal or when the operation meets the criteria to be classified as held for sale. When an operation is classified as a discontinued operation, the comparative income statement is represented as if the operation had been discontinued from the start of the comparative period.

Determination of fair values

A number of the Group's accounting policies and disclosures require the determination of fair value, for both financial and non-financial assets and liabilities. Fair values have been determined for measurement and/or disclosure purposes based on the following methods:

(i) Property, plant and equipment

The fair value of property, plant and equipment recognised as a result of a business combination is based on market values. The market value of property is the estimated amount for which a property could be exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction wherein the parties had each acted knowledgeably, prudently and without compulsion. The market value of items of plant, equipment, fixtures and fittings is based on management's knowledge of prices offered and accepted for comparable items.

(ii) Intangible assets

The fair value of order books and customer lists acquired in a business combination is established by applying the income approach to valuation. The fair value of other intangible assets is based on the discounted cash flows expected to be derived from the use of those assets.

(iii) Inventories

The fair value of inventories acquired in a business combination is determined based on historic cost adjusted to fair value, if applicable. However where its estimated selling price in the ordinary course of business less the estimated costs of completion and sale is lower than cost, that lower value is adopted.

(iv) Trade and other receivables

The fair value of trade and other receivables is estimated as the present value of their expected future cash flows, discounted where appropriate.

(v) Non-derivative financial liabilities

Fair value, which is determined for disclosure purposes, is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. For finance leases the market rate of interest is determined by reference to similar lease agreements.

Borrowings

Borrowings are initially recorded at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost using the effective interest rate method. Amortised cost is calculated taking into account any issue costs.

Net financing costs comprise interest payable on borrowings, interest receivable on cash and cash equivalents and amortisation of debt finance costs that are recognised in the income statement.

Interest income and expense is recognised in the income statement as it accrues, using the effective interest method.

Notes (continued)

3 Significant accounting policies (continued)

Cash and cash equivalents

Cash and cash equivalents are carried in the balance sheet at cost. For the purposes of the consolidated cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks and any other short-term highly liquid investments, less bank overdrafts.

Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently at amortised cost less any provision for impairment. Provision is made when there is evidence that the Group may not be able to collect a receivable.

Trade and other payables

Trade and other payables are recognised initially at fair value and subsequently at amortised cost.

Impact of new accounting standards adopted in the year

There were no newly adopted accounting standards in the year that had a material impact on the Group's consolidated financial statements.

Impact of future accounting standards

The Group has reviewed the accounting standards which are yet to be adopted and which become effective for periods commencing on or after 1 January 2017 and which will apply to the Group's activities. These are:

- IFRS 9 - *Financial Instruments*
- IFRS 15 - *Revenue from Contracts with Customers*
- IFRS 16 - *Leases*

(i) IFRS 9 Financial Instruments ("IFRS 9")

IFRS 9 introduces an "expected loss" impairment model that requires the recognition of impairment provisions based on total expected credit losses ("ECL") rather than on incurred credit losses as is the case under the current financial instruments standard IAS 39. It applies to financial assets including those classified at amortised cost, contract assets under IFRS 15, lease receivables, loan commitments and certain financial guarantee contracts. For the Group this will apply principally to trade receivables.

Based on the assessment undertaken to date the Group does not anticipate a material impact on the loss allowance for trade receivables, mainly as a result of the limited credit risk profile of the Group's receivable balances and financial assets at 31 December 2017. The new standard also introduces expanded disclosure requirements and changes in presentation which are expected to change the nature and extent of the Group's disclosures in relation to its financial instruments, particularly in 2018, the year in which the Group adopts the new standard. The Group plans to apply the new rules retrospectively from 1 January 2018, taking advantage of any exemptions that are available on transition.

(ii) IFRS 15 Revenue from Contracts with Customers ("IFRS 15")

IFRS 15, which will be effective for the Group from 1 January 2018, is a new standard which focusses on revenue recognition and will supersede the existing revenue recognition guidance under IFRS. The core principle of IFRS 15 is that a company should recognise revenue in line with the transfer of promised goods or services to customers at an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. IFRS 15 also provides new accounting guidance in respect of costs which are incurred as a result of delivering goods and services to customers.

IFRS 15 introduces a five-step model that requires companies to exercise judgment when considering the terms of a contract along with all relevant facts and circumstances. The standard further requires expanded disclosures including qualitative and quantitative information in relation to the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

Notes *(continued)*

3 Significant accounting policies *(continued)*

Impact of future accounting standards *(continued)*

(ii) IFRS 15 Revenue from Contracts with Customers (“IFRS 15”) *(continued)*

The Group has performed an evaluation of the contract activity of its operating companies and compared its historical accounting policies and practices with those required by the new standard. Asset rental services are primarily short-term in nature and the impact of IFRS 15 on them is expected to be minimal. Certain of the Group’s companies may enter into contracts for goods and services which are accounted for on a longer-term basis. When such contracts span a period-end, adjustments may be necessary with respect to the timing of revenue and cost recognition depending on the specific contract terms.

Based on their assessment to date, the Directors do not expect that first-time adoption of IFRS 15 will have a material impact on the financial statements at 1 January 2018. The evaluation will be completed during 2018 and the conclusions derived therefrom may result in changes to the Directors’ current assessment. The Group will adopt the new standard from 1 January 2018 using, on transition, the cumulative effect method in which the standard is applied only to the most current period presented in the financial statements with a cumulative effect adjustment reflected in retained earnings. Any such adjustment will be subject to further review during 2018.

(iii) IFRS 16 Leases (“IFRS 16”)

IFRS 16 was issued in January 2016 with an effective date of 1 January 2019. Its adoption is expected to result in almost all leases being recognised on the balance sheet, because the distinction between operating and finance leases is removed. Under the new standard an asset (the right to use a leased item) along with a corresponding financial liability to pay rentals are recognised in the accounting records of the lessee. The only exceptions to this are short-term and low-value leases. The accounting for lessors will not significantly change.

The standard will primarily affect the accounting for the Group’s operating leases for the financial period starting 1 January 2019. As at 31 December 2017, the Group has non-cancellable operating lease commitments of £41.6m (see note 26). The Group has yet to evaluate how the standard will impact the Group and what adjustments, if any, are necessary as a result of its new guidance with respect to the definition of a lease term and differing treatments of both variable lease payments and options to extend and terminate leases. It is therefore not yet possible to attribute an amount to be recognised in respect of right-of-use assets and lease liabilities following adoption of the standard or how this may affect the Group’s profit or loss and classification of its cash flows going forward. The Group does not intend to early-adopt IFRS 16.

4 Financial risk management

The Group’s international operations and debt financing expose it to a variety of financial risks. The Group has in place risk management policies that seek to limit the adverse effects of these risks on the financial performance of the Group. The Board of Directors has overall responsibility for the establishment and oversight of the Group’s financial risk management framework.

(i) Foreign exchange risk

The Group is exposed to foreign exchange risk arising on sales, purchases and borrowings that are denominated in currencies other than the functional currencies of individual Group entities (which are principally Sterling, US Dollars, Euros, Singapore Dollars and Norwegian Kroner). As the Group’s presentation currency is Sterling, it is also subject to foreign exchange translation risk in respect of the results and underlying net assets of foreign operations. The Group mitigates its foreign currency risk to a large extent by operating a natural hedge against its major foreign currency risk which is the US Dollar. The impact on earnings of a weakening Dollar is mitigated by a reduction in the Sterling value of borrowings denominated in US Dollars, and vice versa.

Details of significant balances in foreign currencies and the exchange rates used to translate them into Sterling are shown in note 25.

There were no changes in the Group’s approach to foreign exchange risk during the year.

Notes *(continued)*

4 Financial risk management *(continued)*

(ii) Cash flow and fair value interest rate risk

The Group has interest rate risk arising from its long-term borrowings. Borrowings at variable rates expose the Group to cash flow interest rate risk.

The Group has no significant interest-bearing assets other than cash and cash equivalents of a working capital nature. Therefore the Group's income and operating cash flows arising from such assets are substantially independent of changes in market interest rates.

The Group monitors its exposure to interest rate risk as part of its overall financial risk management. The Board of Directors regularly considers its policy in relation to interest rate hedging and takes action where appropriate to manage its cash flow interest rate risks (see note 25).

There were no changes in the Group's approach to cash flow and fair value interest rate risk during the year.

(iii) Credit risk

Financial instruments that potentially subject the Group to a concentration of credit risk consist primarily of cash and cash equivalents and accounts receivable. Cash and cash equivalents, primarily comprising of current account balances, are maintained with major financial institutions in each of the territories in which the Group operates. Cash balances held by non-UK operating companies in excess of those required for short-term funding needs are regularly remitted to UK bank accounts.

Sales are made on credit and result in short-term credit exposure on trade receivables. The Group's customers are principally major companies in the oil and gas exploration and production sector that have several years' transaction history with the Group. Credit risk from the ordinary course of trade activities is managed by the Group's subsidiaries on a customer and/or project basis.

The Group establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. The major component of this allowance is a specific loss element that relates to individually significant exposures. The ageing of receivables is shown in note 25.

There were no changes in the Group's approach to credit risk during the year.

(iv) Liquidity risk

The Group maintains a blend of long-term and short-term committed facilities that are designed to ensure that it has sufficient available funds for operations and planned expansion and to meet its financial obligations as they fall due. At 31 December 2017 the Group had access to variable rate borrowings in the form of a £298m committed credit facility, of which £238m takes the form of term loans and £60m is a revolving credit facility. The Group is able to draw down on the revolving facility as needed. Interest rates are determined by reference to LIBOR.

There were no changes in the Group's approach to liquidity risk during the year.

(v) Capital risk management

The objectives when managing capital (equity and bank borrowings) are to safeguard the Group's ability to continue as a going concern and:

- provide returns for shareholders;
- provide benefits for other stakeholders; and
- maintain an optimal capital structure to minimise the cost of capital.

The Group monitors its bank borrowings and conducts regular reviews of actual and projected performance against a suite of bank covenants.

There were no changes to the Group's approach to capital management in the year.

Notes (continued)

5 Acquisitions and disposals of subsidiaries and trades

Acquisitions and disposals 2017

(i) Viking acquisition

On 1 December 2017 the Group acquired a 100% shareholding in three companies, Viking Seatech Ltd, Viking Seatech (Australia) Pty Ltd and PT Viking Seatech Indonesia for a total consideration of £6,971,000. These companies, which are based in the United Kingdom, Australia and Indonesia respectively, specialise in the sale, rental and management of marine/mooring equipment and navigational aids, principally for the offshore oil and gas industry. The main rationale for these acquisitions was to augment the Group's mooring equipment fleet and expand its geographical footprint within this industry sector by increasing its presence in Australia and Indonesia.

Between the acquisition date and 31 December 2017 these companies generated revenues of £425,000 and a loss after tax of £398,000. Had the acquisition occurred on 1 January 2017, management estimates that revenues would have been £8,700,000 and the profit after tax for the period would have been £500,000.

The Group also purchased mooring equipment from the vendor for £1,145,000 (in cash) in the form of an asset purchase. This element has been recorded at cost, in accordance with the Group's tangible fixed assets accounting policy, and included in plant, equipment, fixture and fittings as additions in the year (note 14).

The acquisition, per company acquired, had the following effect on the Group's assets and liabilities on the acquisition date:

	Pre-acquisition carrying amounts £000	Recognised values on acquisition £000	
		Fair value adjustments £000	
Viking Seatech Ltd			
Property, plant and equipment	3,107	3,435	6,542
Intangible assets	-	1,656	1,656
Inventories	137	-	137
Trade and other receivables	2,479	-	2,479
Cash in hand and at bank	540	-	540
Trade and other payables	(799)	-	(799)
Current and deferred income tax liabilities	-	(916)	(916)
Net identifiable assets and liabilities acquired	5,464	4,175	9,639
Negative goodwill on acquisition (non-taxable)			(5,857)
Total consideration			3,782
Consideration contributing to future non-committed costs			(7)
Total cash consideration			3,775
Cash acquired			(540)
Net cash outflow			3,235

Notes (continued)

5 Acquisitions and disposals of subsidiaries and trades (continued)

	Pre-acquisition carrying amounts £000	Fair value adjustments £000	Recognised values on acquisition £000
Viking Seatech (Australia) Pty Ltd			
Property, plant and equipment	4,019	(281)	3,738

Goodwill on acquisition (non-deductible for tax)			1,158
Total consideration			1,763
Cash acquired			(112)
Net cash outflow			1,651

The Group incurred acquisition-related costs for these acquisitions of £850,000 on legal fees and due diligence costs. These costs are included in other administrative expenses within the consolidated income statement.

Notes (continued)

5 Acquisitions and disposals of subsidiaries and trades (continued)

Pre-acquisition carrying amounts were determined based on applicable IFRS immediately before the acquisition. The value of assets and liabilities recognised on acquisition were their estimated fair value (note 3 outlines the methods used in determining fair values). In determining the fair value of property, plant and equipment and intangibles (customer lists and order books) acquired, the Group applied the income approach to ascertain the discounted cash flows expected to be derived from the use of the assets. These values, including those assigned to goodwill, in accordance with IFRS 3 (*revised*), are subject to amendment within twelve months of the acquisition date if further information is obtained which indicates that a material adjustment is required.

The negative goodwill totalling £6,967,000, which has been immediately credited to the income statement, arose as a result of the fair value of assets of companies acquired being greater than the consideration paid for them. These companies directly complement the Group's existing trading activities and anticipated synergies in operations and expertise will significantly improve the future performance of the companies acquired and the Group's mooring business as a whole. Increased project opportunities are expected to be derived by the Group as a result of having access to a larger and more diverse mooring equipment pool spread across a wider geographical area.

(ii) Mirage Machines Ltd divestment

The Group sold its entire shareholding in Mirage Machines Ltd to Actuant Corporation on 1 December 2017 for a total consideration of £10,518,000.

The table below summarises the assets and liabilities divested, the profit on sale recognised within the income statement and the consideration and net cash received.

	Recognised values on disposal £000
Property, plant and equipment	457
Intangible assets (including goodwill recognised on original acquisition of £540,000)	555
Inventories	2,695
Trade and other receivables	990
Cash in hand and at bank	859
Trade and other payables	(921)
Current and deferred income tax liabilities	(417)
Net identifiable assets and liabilities	4,218
Less non-controlling interest	(368)
Net assets divested	3,850
Profit on disposal (recognised in the income statement)	6,668
Total consideration received	10,518
Cash divested	(859)
Net cash inflow	9,659

The Group incurred legal and professional costs relating to the divestment of £330,000. These costs are included in other administrative expenses within the consolidated income statement.

Along with the Mirage Machines Ltd share sale the Group divested the majority of the fixed assets and inventory in Mirage Subsea Inc.

Notes *(continued)*

5 Acquisitions and disposals of subsidiaries and trades *(continued)*

Acquisitions 2016

Bruce Anchor Ltd

On 19 December 2016 the Group acquired the trading assets of Bruce Anchor Ltd and Brupat Ltd at their fair value through a newly incorporated 85% owned subsidiary. The trade purchased relates to the design and fabrication of mooring anchors and complements the Group's offerings within its mooring operations.

Between the acquisition date and 31 December 2016 no revenue or profit was generated from these assets. If the acquisition had occurred on 1 January 2016, management estimates that revenues would have been £1,100,000 and the profit before tax for the period would have been £50,000. In determining these amounts, management has assumed that the fair value of the assets at acquisition would remain the same.

The acquisition had the following effect on the Group's assets and liabilities on the acquisition date:

	Recognised values on acquisition £000
Property, plant and equipment	200
Intangible assets (including £200,000 goodwill)	832
Inventories	500
Net identifiable assets and liabilities acquired	1,532
Total consideration	1,532
Cash acquired	-
Net cash outflow	1,532

The purchase price of these assets was deemed to be fair value.

Goodwill arose on the acquisition because of its complementary nature to the Group's existing products and services.

The Group incurred acquisition-related legal costs of £150,000. These costs are included in other administrative expenses within the consolidated income statement.

Notes (continued)

6 Revenue

	2017 £000	2016 £000
Sale of goods	49,018	36,867
Rendering of services	247,181	314,383
	<hr/>	<hr/>
	296,199	351,250
	<hr/>	<hr/>

A geographical analysis of revenue is not presented on the basis that the Directors consider such disclosure would be seriously prejudicial.

7 Other income

	2017 £000	2016 £000
Net gain on sale of non-rental property, plant and equipment	403	25
	<hr/>	<hr/>

2016 includes a profit on sale of £283,000 resulting from the disposal of a freehold property previously held for sale at 31 December 2015.

8 Expenses and auditor's remuneration

	2017 £000	2016 £000
<i>(Loss)/profit before taxation is stated after charging:</i>		
Depreciation and other amounts written off owned tangible fixed assets	30,352	33,351
Impairment relating to tangible fixed assets	-	4,492
Amortisation of intangibles	8,278	10,002
Hire of plant and machinery - rentals payable under operating leases	1,315	1,396
Hire of other assets - operating leases	8,060	8,578
Research and development expenditure	665	1,051
	<hr/>	<hr/>

	2017 £000	2016 £000
<i>Auditor's remuneration:</i>		

Audit of these financial statements	88	88
Amounts receivable by the Company's auditor and its associates in respect of:		
Audit of financial statements of subsidiaries of the Company	482	484
Taxation compliance services	595	473
Other tax advisory services	141	104
Corporate finance services	166	-
All other services	10	81
	<hr/>	<hr/>

Notes (continued)

9 Remuneration of directors

	2017 £000	2016 £000
Directors' emoluments	641	651
Company contributions to money purchase pension schemes	13	13
	<hr/>	<hr/>

The aggregate of emoluments of the highest paid director was £351,000 (2016: £357,000). Company pension contributions of £7,000 (2016: £7,000) were made to a money purchase scheme on his behalf.

	Number of directors 2017	2016
Retirement benefits are accruing to the following number of directors under:		
Money purchase schemes	2	2
	<hr/>	<hr/>

10 Personnel expenses and employee numbers

The average number of employees during each year was as follows:

	Number of employees 2017	2016
Directors of Acteon Group Limited	2	2
Technical and administration	1,565	1,819
	<hr/>	<hr/>
	1,567	1,821
	<hr/>	<hr/>

The aggregate payroll costs of the average number of employees were as follows:

	2017 £000	2016 £000
Wages and salaries	89,831	103,001
Social security costs	8,756	9,736
Contributions to defined contribution plans	2,970	3,404
Expenses related to defined benefit plans	231	305
Credit relating to defined benefit plan curtailment/amendment	-	(316)
	<hr/>	<hr/>
	101,788	116,130
	<hr/>	<hr/>

Notes (continued)

11 Finance income and expense

Recognised in profit or loss

	2017 £000	2016 £000
Interest income on bank deposits	2,297	2,577
Foreign exchange gains	5,450	-
Gain on discounted loan repayment	-	175
Other interest receivable	181	172
Finance income	7,928	2,924
Interest payable on bank borrowings	(16,286)	(18,699)
Foreign exchange losses	-	(5,350)
Amortisation of finance raising costs	(1,964)	(883)
Exceptional amortisation of finance raising costs	(222)	-
Finance charges under finance lease and hire purchase contracts	(5)	(26)
Interest on net employee benefit obligations	(42)	(51)
Other interest payable	(38)	(50)
Finance expense	(18,557)	(25,059)
Net finance expense recognised in profit or loss	(10,629)	(22,135)

During the year the Group restructured its secured bank borrowings which resulted in interest rate and capital repayment profile changes as detailed in note 22. The directors considered both the quantitative and qualitative aspects of the amendment to the existing facility and concluded that the resulting changes in the underlying debt categories, ancillary facilities and key covenant definitions constituted a substantial modification to the financing arrangements.

In accordance with IAS 39, *Financial Instruments: Recognition and Measurement*, the original facility was extinguished and replaced by the recognition of a new financial liability. Consequently, the remaining unamortised finance raising costs relating to the existing 2015 agreement were charged to the income statement in 2017, resulting in exceptional costs of £222,000 over and above what would have otherwise been recognised in that year.

	2017 £000	2016 £000
Recognised directly in equity		
Translation of foreign currency net investments	(10,444)	38,350
Finance (expense)/income recognised directly in equity, net of tax	(10,444)	38,350

All finance (expense)/income recognised directly in equity is attributable to holders of equity in the company. Translation gains and losses in respect of foreign currency net investments are recognised in the foreign currency translation reserve.

Notes (continued)

Effect of reduction in tax rate on deferred tax balances	(475)	(376)
	<hr/>	<hr/>
Total income tax charge/(credit)	2,316	(680)
	<hr/>	<hr/>

* The effective rate for 2017 is a weighted average of the applicable corporation tax rates during that year. The 20% rate was reduced to 19% from 1 April 2017.

The UK corporation tax rate, as substantively enacted in the Finance Act 2016 on 6 September 2016, reduced to 19% (effective from 1 April 2017) and will further reduce to 17% (effective 1 April 2020).

The UK element of the deferred tax balance at 31 December 2017 has been calculated based on the rate substantively enacted in the Finance Act 2016 at the balance sheet date, which is 17%.

Notes (continued)

13 (Loss)/profit for the financial year

The loss dealt with in the accounts of the parent company was £6,402,000 (2016: £23,861,000 profit). The balance sheet of the parent company can be found on page 59.

Notes (continued)

14 Property, plant and equipment (continued)

The Group performed an impairment review of its asset values at both the current and prior year-ends. In 2016, as a result of reduced earnings expected to be generated from certain assets, mainly within a Brazil-based subsidiary, an impairment loss of £4,492,000 was recognised. No further impairment losses have been identified in the current year.

The cumulative fixed asset impairment losses carried forward as at 31 December 2017 amounted to £3,884,000 (2016 £4,670,000). The movement in the year arose as a result of the disposal of some of the impaired assets (£426,000) and changes in foreign exchange rates reducing the value of the remaining underlying impaired assets (£360,000).

The net carrying amount of land, buildings and leasehold improvements comprises:

	2017 £000	2016 £000
Freehold land and buildings	13,229	13,356
Short leaseholds	11,853	13,083
Leasehold improvements	2,537	2,883
	<hr/>	<hr/>
	27,619	29,322
	<hr/>	<hr/>

Leased plant and machinery

The Group occasionally leases equipment under a number of finance lease agreements. At 31 December 2017 the net carrying amount of leased plant and machinery was £nil (2016: £410,000).

Security

At each balance sheet date the majority of properties were subject to a fixed or floating charge as security for bank loans.

Cash flow

The gross additions (excluding those arising on acquisition) to property, plant and equipment of £11,600,000 (2016: £11,218,000) have been adjusted in relation to the value of capital creditors outstanding at 31 December to derive the amount for inclusion in the Statement of Cash Flow for the purchase of property, plant and equipment.

Amortisation and impairment charge

Amortisation and impairment of intangible assets is included within administrative expenses in the income statement.

Customer lists represent the value associated with the customer base of subsidiaries acquired since 1 January 2006.

The principal carrying amount of customer lists at 31 December 2017 includes:

	2017 £000	2016 £000
InterMoor AS – Amortisation period remaining of 2 years 6 months	2,647	3,706
UTEC NCS Survey Ltd – Amortisation period remaining of 3 years 5 months	1,271	1,643
Probe Oil Tools Ltd – Amortisation period remaining of 5 years 8 months	10,413	12,251
UTEC Group – Amortisation period remaining of 6 years 11 months	19,389	22,197
Viking companies – Amortisation period remaining of 9 years 11 months	2,545	-
	_____	_____

Order books represent the value associated with incomplete customer orders at the date of acquisition in subsidiaries. The carrying amount relates to the Viking companies and has a remaining amortisation period of 11 months.

Notes (continued)

15 Intangible assets (continued)

Impairment testing for cash-generating units (CGUs) containing goodwill

Goodwill is allocated to operating units for the purpose of impairment testing and this represents the lowest level within the Group at which goodwill is monitored for internal management purposes. Goodwill arising on business combinations is not amortised but is reviewed for impairment on an annual basis or more frequently if there are indications that goodwill may be impaired.

The aggregate carrying amounts of goodwill allocated to each unit are as follows:

	2017 £000	2016 £000
<u>High capital intensity units</u>

	<hr/>	<hr/>
Total goodwill	177,888	177,270
	<hr/>	<hr/>

Recoverable amounts for CGUs are based on value-in-use calculations. These calculations use pre-tax cash flow projections for a five-year period, including financial budgets approved by the board covering a one-year period. Cash flows beyond the one-year period are extrapolated based on estimated long-term average growth rates (typically 3 to 6 per cent). Goodwill is considered to have an infinite life and the cash flows in year five are used as a basis for calculating a terminal value. The terminal value is added to the value-in-use calculated for years one to five. The growth rate in years two to five does not exceed the anticipated long-term average growth rate for the market in which the CGU operates after taking account of the recovery from the recent cyclical decline in the oil and gas sector and the effect on current profitability levels. In all cases, a terminal growth value of 2% (2016: 2%) has been assumed. The key inputs to this calculation are shown below:

	As at 31 December 2017	As at 31 December 2016
Period on which management approved forecasts are based	1 Year	1 Year
Average growth rate applied for years two to five – Aquatic	*	86.0%
Average growth rate applied for years two to five – Probe Oil Tools Ltd	27.0%	38.0%
Average growth rate applied for years two to five – InterMoor AS	15.0%	33.5%
Average growth rate applied for years two to five (2016: two to seven) – UTEC	19.0%	19.0%
Average growth rate applied for years two to five – other entities	5.0%	5.0%
Growth rate applied to terminal value calculation	2.0%	2.0%
Pre-tax discount rate	12.0%	12.0%

* For Aquatic, the short-term loss-making position forecast in 2018 is expected to improve over the five-year period with an assessed prudent maintainable earnings level at the end of year five of £3,500,000.

Notes (continued)

15 Intangible assets (continued)

Impairment testing for CGUs containing goodwill (continued)

Whilst current market conditions do not support the average growth rates presented above in the very short term, it is anticipated that over the medium- to longer-term these rates are appropriate, reflecting the expected recovery in the subsea oil and gas sector over the period covered by the projections.

The pre-tax discount rate applied to the cash flow projections has been derived by estimating the Group's tax-adjusted weighted average cost of capital. The rate adopted is broadly consistent with that of other market participants taken together. An increase in the pre-tax discount rate of 1% would not result in a significant change in the impairment assessment.

Impairment reviews were performed at 31 December 2016 and 31 December 2017 by comparing the carrying value of goodwill and other intangible and tangible fixed assets with the estimated recoverable amount of each CGU. As part of the impairment reviews a sensitivity analysis was performed.

On the basis of this review, the directors concluded there was no evidence of any further impairments as at 31 December 2017.

The cumulative impairment provisions within intangible assets are as follows:

	2017	2016
	£000	£000
Goodwill	10,957	10,957
Customer lists	3,148	3,148
Software - the asset was disposed of during 2017.	-	74
	<hr/> 14,105	<hr/> 14,179
	<hr/> <hr/>	<hr/> <hr/>

There are no intangible assets, other than goodwill, with indefinite useful lives.

Notes (continued)

16 Deferred tax assets and liabilities

Recognised deferred tax assets and liabilities

Deferred tax assets and liabilities are analysed as:

	Assets		Liabilities	
	2017 £000	2016 £000	2017 £000	2016 £000
Property, plant and equipment	-	-	5,513	10,203
Intangible assets	-	-	8,867	9,985
Retirement benefit obligations	(188)	(149)	-	-
Provisions/accruals	(12)	(4,122)	-	-
Tax losses carried forward	(3,897)	(3,881)	-	-
Other items	(345)	(342)	-	-
Deferred tax (assets)/liabilities	(4,442)	(8,494)	14,380	20,188
Net deferred tax liabilities	9,938	11,694		

The Group has recognised deferred tax assets in respect of losses carried forward on the basis that they will be used to offset future taxable profits.

At 31 December 2017 deferred tax assets totalling £12,388,000 (2016: £8,109,000) relating to trading losses (including the restriction of corporate interest deductions) have not been recognised because the relevant entities are forecasting insufficient profits for them to be utilised.

Deferred tax impact of movements in temporary differences during the year – 2017

	Balance 1 January 2017 £000	Foreign exchange movement £000	Recognised in income statement £000	Adjustments for prior year £000	Acquired/ divested in business combinations £000	Balance 31 December 2017 £000

	88,628	99,796
	<hr/>	<hr/>

The Group's exposures to credit and currency risks and impairment losses related to trade and other receivables are disclosed in note 25.

Notes (continued)

19 Share capital

	Allotted, called up and fully paid No 000	£000
At 31 December 2016 and 31 December 2017		
Ordinary shares of £0.01 each	1,165,929	11,659
	<hr/>	<hr/>

20 Capital and reserves

Share premium

Share premium represents the excess of the proceeds received from the issue of shares over the nominal value of those shares.

Foreign currency translation reserve

The foreign currency translation reserve comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

Other reserves

Other reserves represent a capital redemption reserve credit balance of £1,154,000 (2016: £1,154,000) and ownership change reserve debit balance of £6,145,000 (2016: *debit balance of £6,480,000*).

The capital redemption reserve arose on the repurchase of own shares by the Company.

The ownership change reserve arose from the Group acquiring and disposing of shareholdings in existing group companies which did not result in a change in overall control. In accordance with IAS 27, *Consolidated and Separate Financial Statements*, any goodwill changes are posted to this reserve, rather than adjusting goodwill on initial acquisition by the Group.

The movement on the ownership change reserve during the year of £335,000 arose from the sale of Mirage Machines Ltd (see note 5).

Retained earnings

Retained earnings comprise cumulative undistributed earnings of the Group.

Notes (continued)

21 Non-controlling interests

	UTECH Group £'000	Seatrionics Group £'000	Probe Oil Tools Limited £'000	Other £'000	Total £'000
Balance at 1 January 2016	3,177	1,056	7,216	404	11,853
(Loss)/profit allocated to non-controlling interests in the year	(20)	42	55	81	158
Increase in non-controlling interests arising on entity incorporations in the year (see below)	5	-	-	-	5
Balance at 31 December 2016	3,162	1,098	7,271	485	12,016
(Loss)/profit allocated to non-controlling interests in the year	(210)	37	22	320	169
Reduction in non-controlling interests arising from the sale of a subsidiary undertaking (note 5)	-	-	-	(368)	(368)
Balance at 31 December 2017	2,952	1,135	7,293	437	11,817

During 2016 UTEC Group incorporated a new Ghanaian subsidiary, TecAfrica Offshore Ltd, with a non-controlling interest of 10%. This had the effect of increasing the UTEC Group net assets attributable to non-controlling interests by £5,000.

22 Loans and borrowings

This note provides information relating to the contractual terms of the Group's interest-bearing loans and borrowings, which are measured at amortised cost. Further information relating to the Group's exposure to interest rate, foreign currency and liquidity risk is contained in note 25.

	1 January 2017 £'000	Cash flows (*) £'000	Foreign exchange £'000	Non-cash changes Debt issue cost amortisation / accrual change £'000	Repayment profile £'000	31 December 2017 £'000
Non-current liabilities						
Secured bank loans	288,644	(47,277)	(5,301)	1,242	(14,892)	222,416
	288,644	(47,277)	(5,301)	1,242	(14,892)	222,416
Current liabilities

Finance lease liabilities	262	(262)	-	-	-	-
	20,712	(21,598)	-	886	14,892	14,892
Total loans and borrowings	309,356	(68,875)	(5,301)	2,128	-	237,308

* Includes expenses paid in relation to borrowings of £1,560,000.

Notes (continued)

22 Loans and borrowings (continued)

Terms and debt repayment schedule

The principal terms relating to outstanding borrowings are as follows:

	Currency	Nominal interest rate	Year of maturity	Face value 2017 £000	Carrying amount*		Face value 2016 £000	Carrying amount* 2016 £000
					2017 £000	2016 £000		
Secured bank loan	Sterling	Libor + Margin**	2018-2020	188,229	187,802	244,673	243,800	
Secured bank loan	US Dollar	Libor + Margin**	2018-2020	49,618	49,506	65,528	65,294	
Finance lease liabilities	Sterling	4.6%	2017	-	-	262	262	
Total interest-bearing liabilities				237,847	237,308	310,463	309,356	

* The carrying amount of each loan is the face value less its unamortised debt issue costs.

** Margin is in the range of 3.50% to 4.75% depending on the Group's financial performance.

The bank loans are secured via fixed or floating charges over the majority of the Group's properties and other assets.

During the year an Amendment to the terms of the secured bank loans was negotiated. This had the effect of increasing the capital repayments to be made in 2017, extending the maturities on the remaining capital sum, easing two of the covenants and slightly increasing interest margins. The table above reflects the revised terms. Prior to this Amendment, the loans were due for repayment in 2017 to 2019 and interest margins on the individual tranches were in the 3.0% to 4.75% range.

Finance lease liabilities are payable as follows:

	Future minimum lease payments 2017 £000	Interest 2017 £000	Present value of minimum lease payments 2017 £000	Future minimum lease payments 2016 £000		Interest 2016 £000	Present value of minimum lease payments 2016 £000
				Interest 2016 £000	Present value of minimum lease payments 2016 £000		
				-	-		
Less than one year	-	-	-	267	5	262	

Notes (continued)

23 Employee benefits

Defined contribution schemes

The Group operates various defined contribution pension schemes, the assets of which are held separately from those of the Group in independently administered funds.

Defined benefit schemes

MENCK GmbH, a subsidiary of Acteon Group Ltd incorporated in Germany, operates two defined benefit pension schemes as described in note 3. Unlike UK pension schemes the pension obligations of the scheme are met via the assets of the company. There are no assets held separately by the scheme itself.

InterMoor AS, an indirectly owned subsidiary of Acteon Group Ltd incorporated in Norway, also operates a defined benefit scheme. The scheme's pension obligations are met via plan assets held separately in the form of an insurance policy. The company contributes annually into the policy, with the premiums being invested to provide assets sufficient to fund employees' accrued benefit entitlements on retirement.

Charges to the income statement

Total charges/(credits) to operating (loss)/profit in the income statement in respect of the schemes operated by the Group were as follows:

	2017 £000	2016 £000
(i) In respect of the Group's defined contribution schemes		
- UK	1,576	1,993
- Overseas	1,394	1,411
	2,970	3,404
(ii) In respect of the Group's defined benefit schemes	231	(11)

Movement in fair value of plan assets

Fair value of plan assets at 1 January	1,851	1,789	-	-
Interest income	42	45	-	-
Actuarial gain/(loss) on plan assets recognised in equity (see below)	10	(253)	-	-
Employer contributions	150	337	-	-
Benefits paid from the plan	(39)	(41)	-	-
Settlement paid from the plan	(24)	(425)	-	-
Exchange rate movements on retranslation	(80)	399	-	-
Fair value of plan assets at 31 December	1,910	1,851	-	-
Deficit recognised at 31 December	(383)	(128)	(1,912)	(1,814)

The past service and settlement costs in InterMoor AS in 2016 reflected a reduction in the number of scheme members during that year. This resulted from a decrease in the company's staff numbers and the migration of some existing members to the company's defined contribution pension scheme.

Historical information – InterMoor AS funded pension scheme

	2017 £000	2016 £000	2015 £000	2014 £000	2013 £000
Present value of the defined benefit obligation	(2,293)	(1,979)	(2,215)	(2,556)	(1,989)
Fair value of the planned assets	1,910	1,851	1,789	1,736	1,611
Deficit in the plan	(383)	(128)	(426)	(820)	(378)
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Experience gain/(loss) adjustments on plan liabilities	1	267	53	(56)	(49)
Experience gain/(loss) adjustments on plan assets	36	(27)	(7)	29	(15)

The plan obligations have a weighted average duration at the year-end of 21 years (2016: 21 years), and in 2018 the Group expects to pay contributions totalling £181,000 into the plan.

Historical information – Menck GmbH unfunded pension scheme

	2017 £000	2016 £000	2015 £000	2014 £000	2013 £000
Present value of the defined benefit obligation	(1,912)	(1,814)	(1,442)	(1,558)	(1,368)
Deficit in the plan	(1,912)	(1,814)	(1,442)	(1,558)	(1,368)
	<hr/>	<hr/>	<hr/>	<hr/>	<hr/>
Experience loss adjustments on plan liabilities	(21)	(14)	(7)	(5)	(18)

The plan obligations have a weighted average duration at the year-end of 16 years (2016: 16 years). The scheme is an unfunded scheme and the Group expects to pay £86,000 in plan benefits during 2018. This will settle the liabilities to pensioners as they fall due.

24 Trade and other payables

	2017 £000	2016 £000
Trade payables	22,380	13,677
Other tax and social security	2,652	2,744
Other creditors	5,734	6,523
Accruals and deferred income	34,837	37,901
	<hr/>	<hr/>
	65,603	60,845
	<hr/>	<hr/>

The Group's exposure to currency and liquidity risk related to trade and other payables is disclosed in note 25.

Notes (continued)

25 Financial instruments

The Group's activities give rise to a variety of financial risks: market risk (including currency risk and cash flow interest rate risk), credit risk and liquidity risk. The Group's approach to financial risk management is described in note 4.

Exposure to credit risk

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

	Carrying amount	
	2017	2016
	£000	£000
Trade and other receivables (excluding prepayments)	82,134	92,772
Cash and cash equivalents	72,706	127,934
	<hr/>	<hr/>
	154,840	220,706
	<hr/>	<hr/>

The carrying amounts of the Group's net trade receivables were denominated in the following principal currencies:

	Carrying amount	
	2017	2016
	000	000
Sterling	33,480	31,698
US Dollars	17,113	34,877
Euros	8,943	8,432
Norwegian Kroner	36,364	42,365
Singapore Dollars	4,543	5,794
	<hr/>	<hr/>

Notes (continued)

25 Financial instruments (continued)

Impairment losses

The Group contracts with customers under different credit terms.

The ageing of trade receivables at the reporting date was:

	Provision for impairment			Provision for impairment		
	Gross 2017	2017	Net 2017	Gross 2016	2016	Net 2016
	£000	£000	£000	£000	£000	£000
0-30 days	37,612	(256)	37,356	51,475	(66)	51,409
31-60 days	20,888	(170)	20,718	18,519	(242)	18,277
61-90 days	6,072	(268)	5,804	7,395	(366)	7,029
Over 91 days	13,039	(7,521)	5,518	9,558	(6,539)	3,019
Trade receivables	77,611	(8,215)	69,396	86,947	(7,213)	79,734

The movement in the allowance for impairment in respect of trade receivables during the year was as follows:

	2017 £000	2016 £000
Balance at 1 January	7,213	7,401
Impairment loss charged/(utilised and/or reversed)	1,002	(188)
Balance at 31 December	8,215	7,213

The impairment loss at 31 December 2017 relating to provisions against the recoverability of amounts on specific contracts totals £6,962,000 (2016: £5,485,000).

Liquidity risk

The Group's policy on liquidity risk management is discussed in note 4.

The following are the contractual maturities of financial liabilities, including estimated interest payments and including the impact of netting agreements:

Non-derivative financial liabilities

	Carrying amount £000	Contractual cash flows £000	6 months or less £000	6-12 months £000	1-2 years £000	2-5 years £000
2017						
Secured bank loans	237,308	272,339	12,112	16,233	29,533	214,461
Trade and other payables	65,603	65,603	65,603	-	-	-
	302,911	337,942	77,715	16,233	29,533	214,461
	=====	=====	=====	=====	=====	=====
2016						
Secured bank loans	309,094	348,099	18,093	17,837	48,242	263,927
Finance lease liabilities	262	267	267	-	-	-
Trade and other payables	60,845	60,845	60,845	-	-	-
	370,201	409,211	79,205	17,837	48,242	263,927
	=====	=====	=====	=====	=====	=====

25 Financial instruments (continued)

Exposure to currency risk

The Group's significant exposure to foreign currency risk was as follows:

31 December 2017

Impact in 000s	USD	Euro	SGD	NOK
Trade receivables	17,113	8,943	4,543	36,364
Cash and cash equivalents	39,059	(499)	8,457	23,261
Secured bank loans	(66,934)	-	-	-
Trade payables	(3,666)	(5,342)	(1,243)	(12,510)
Gross balance sheet financial instrument exposure	(14,428)	3,102	11,757	47,115
	=====	=====	=====	=====

Impact in 000s	USD	Euro	SGD	NOK
Trade receivables	34,877	8,432	5,794	42,365
Cash and cash equivalents	61,705	14,987	11,454	89,557
Secured bank loans	(80,600)	-	-	-
Trade payables	(5,568)	(483)	(1,307)	(9,087)
Gross balance sheet financial instrument exposure	10,414	22,936	15,941	122,835
	=====	=====	=====	=====

The following significant exchange rates applied during the year:

	Reporting date spot			
	Average rate		rate	
	2017	2016	2017	2016
	£	£	£	£
USD	1.2970	1.3444	1.3490	1.2300
Euro	1.1423	1.2185	1.1260	1.1670
SGD	1.7833	1.8580	1.8030	1.7790
NOK	10.6811	11.2903	11.0780	10.6010

Sensitivity analysis

A 5 percent strengthening of Sterling against the following currencies at 31 December would have increased/(decreased) equity and profit after tax by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2016.

	Balance sheet (Equity)	Income Statement (Profit after tax)
Impact in £000		
31 December 2017		
USD	(351)	19
Euro	(603)	(111)
SGD	(775)	187
NOK	220	(41)
31 December 2016		
USD	(2,512)	(52)
Euro	(1,047)	(369)
SGD	(916)	30
NOK	(701)	(128)

A 5 percent weakening of Sterling against the above currencies at 31 December would have had an equal but opposite effect on the above currencies to the amounts shown above, on the basis that all other variables remained constant.

Interest rate risk

Profile

	Carrying amount	
	2017	2016
	£000	£000
Fixed rate instruments		
Financial liabilities at 31 December	-	262
	=====	=====
Variable rate instruments		
Financial liabilities at 31 December	237,308	309,094
	=====	=====

During 2017 the Group entered into a hedging arrangement until 2020 in which a proportion of its US Dollar borrowings would be protected against US Dollar Libor increasing above a certain level. The fair value of this instrument at 31 December 2017 is £nil.

Notes (continued)

25 Financial instruments (continued)

Cash flow sensitivity analysis for variable rate instruments

An increase of 100 basis points in interest rates during the reporting period and at the reporting date would have decreased equity and profit before tax by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. Tax effects have been ignored. The analysis is performed on the same basis for 2016.

	Balance sheet (Equity)	Income Statement (Profit before tax)
Impact in £000		
31 December 2017		
Variable rate instruments	2,732	2,732
Cash flow sensitivity	2,732	2,732
31 December 2016		
Variable rate instruments	3,116	3,116
Cash flow sensitivity	3,116	3,116

A decrease of 100 basis points in interest rates during the reporting period and at the reporting date would have had an equal but opposite effect on the above amounts shown above, on the basis that all other variables remained constant.

Fair values

Fair values versus carrying amounts

The fair values of financial assets and liabilities, together with the carrying amounts shown in the balance sheet, are as follows:

	2017	2016		
	Carrying amount £000	Fair value £000	Carrying amount £000	Fair value £000
Trade and other receivables	88,628	88,628	99,796	99,796
Cash and cash equivalents	72,706	72,706	127,934	127,934
Secured bank loans	(237,308)	(236,344)	(309,094)	(307,607)
Finance lease liabilities	-	-	(262)	(250)
Trade and other payables	(65,603)	(65,603)	(60,845)	(60,845)
	(141,577)	(140,613)	(142,471)	(140,972)

The fair values of borrowings have been calculated by discounting expected future cash flows at prevailing interest rates.

Notes (continued)

25 Financial instruments (continued)

Interest rates used for determining fair value

The interest rates used to discount estimated cash flows, where applicable, are based on the rates applicable to the borrowings at the relevant balance sheet date, and were as follows:

	2017	2016
Loans and borrowings	5.4%	4.8%
Leases	-	4.6%
	<hr/>	<hr/>

26 Operating lease commitments

Total amounts payable in relation to non-cancellable operating lease arrangements are, for the unexpired periods of such leases, as follows:

	Land and buildings		Other	
	2017 £000	2016 £000	2017 £000	2016 £000
Unexpired period of the lease				
Less than one year	6,200	7,675	611	1,156
Between one and five years	15,696	18,558	376	953
More than five years	18,742	19,680	2	-
	<hr/>	<hr/>	<hr/>	<hr/>
	40,638	45,913	989	2,109
	<hr/>	<hr/>	<hr/>	<hr/>

Operating leases consist mainly of property leases for buildings and storage sites occupied by the Group.

27 Capital commitments

At 31 December 2017 the Group had entered into contracts to purchase property, plant and equipment totalling £2,636,000 (2016: £351,000) in respect of which delivery and settlement was expected to take place in the following financial year.

28 Contingent liabilities

The Group may, from time to time, be subject to claims or proceedings in the normal course of business. The directors believe, based on the information currently available to them, that the likelihood of a material outflow of economic benefit arising in relation to such matters is remote.

29 Parent and ultimate controlling party

The Company's immediate parent undertaking is KKR Matterhorn Bidco Ltd, a company incorporated in Jersey.

The Company's ultimate parent undertaking is KKR Matterhorn Holdco Ltd, a company incorporated in Jersey, and the ultimate controlling party is KKR & Co. LP, a limited partnership listed on the New York Stock Exchange. The general partner of KKR & Co. LP is KKR Management LLC.

The registered office address for both Jersey incorporated entities is 47 Esplanade, St Helier, Jersey, JE1 0BD.

KKR & Co. LP and KKR Management LLC's registered office address is 9 West 57th Street, Suite 4200, New York, NY 10019, USA.

<hr/>	<hr/>	<hr/>
Of which outstanding at the year-end:	2	2
<hr/>	<hr/>	<hr/>

(ii) Key management personnel and director transactions

BHHM pension scheme

The Group had transactions with BHHM Pension Scheme, an entity associated by common directors/trustees as follows:

Rent charged by BHHM Pension Scheme amounted to £297,000 (2016: £307,000). The amount owing to BHHM Pension Scheme at 31 December 2017 was £56,000 (2016: £74,000).

Balanus Assets Ltd

The Group had transactions with Balanus Assets Ltd, an entity associated by common directors as follows:

Rent charged by Balanus Assets Ltd amounted to £154,000 (2016: £154,000). No amounts were owing to Balanus Assets Ltd at 31 December 2017 (2016: £nil).

Directors' interests

Directors of the Company have an equity interest in the Company of 14.6% (2016: 14.6%).

(b) Post-employment benefit plans

The Group operates a post-employment benefit plan as detailed in note 23.

The Group contributed the following amounts to defined contribution plans and had amounts outstanding at 31 December each year as follows:

	Employer contributions		Outstanding at 31 December	
	2017 £000	2016 £000	2017 £000	2016 £000
Defined contribution schemes	2,970	3,404	276	272

Accounting policies

Acton Group Limited (the “Company”) is a company incorporated and domiciled in the UK.

The Company has taken advantage of the exemption in s408 of the Companies Act 2006 not to present its individual profit and loss account and related notes that form part of these approved financial statements.

These financial statements have been prepared in accordance with Financial Reporting Standard 101 *Reduced Disclosure Framework* (“FRS 101”).

In preparing these financial statements, the Company has applied the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU (“Adopted IFRS”), making amendments where necessary in order to comply with the Companies Act 2006. The Company has also taken advantage of the available FRS 101 disclosure exemptions in relation to the following:

- a Cash Flow Statement and related notes;
- Comparative period reconciliations for share capital and tangible fixed assets;
- Disclosures in respect of transactions with wholly owned subsidiaries;
- Disclosures in respect of capital management;
- The effects of new but not yet effective IFRSs;
- Disclosures in respect of the compensation of Key Management Personnel.

The consolidated financial statements of Acteon Group Limited include the disclosures as required under IFRS 7, *Financial Instruments: Disclosures*, and IFRS 13, *Fair Value Measurements*, both relating to financial instruments. As a consequence, the Company has also taken the exemption under FRS 101 not to include the equivalent disclosures, apart from those which are relevant for financial instruments held at fair value and are not either held as part of a trading portfolio or derivatives.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements.

Judgements made by the directors in the application of these accounting policies that have a significant effect on these financial statements, or in relation to estimates with a significant risk of material adjustment in the next year, are discussed in note 34 in relation to impairment of investment values.

Measurement convention

The financial statements have been prepared under the historical cost convention.

Tangible fixed assets

Tangible fixed assets are stated at cost less accumulated depreciation and accumulated impairment losses. When an element of a tangible fixed asset item has a different useful life, it is accounted for as a separate tangible fixed asset item.

Notes (continued)

31 Accounting policies (continued)

Tangible fixed assets (continued)

Depreciation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each element of an item of tangible fixed asset.

The estimated useful lives are as follows:

Fixtures, fittings and computer equipment 3-5 years straight line

Depreciation methods, useful lives and residual values are reviewed at each balance sheet date.

Intangible fixed assets

Intangible fixed assets represents software and is stated at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged to the profit and loss account on a straight-line basis over the estimated useful lives of each intangible asset from the date they are available for use. This is currently assessed as 3 years.

Non-derivative financial instruments

Non-derivative financial instruments comprise investments, trade and other debtors, cash and cash equivalents, trade and other creditors, and loans and borrowings.

(i) Investments

Investments in subsidiaries are carried at deemed cost less impairment.

During 2016 the trading net assets of one of the Company's subsidiaries, InterMoor Marine Services Limited, were transferred to a fellow subsidiary company, InterMoor Limited, at book value. Since the cost of the Company's investment in InterMoor Marine Services Limited reflected the underlying fair value of its net assets at the time of acquisition, the remaining value of InterMoor Marine Services Limited following the net asset transfer fell below the amount at which it was stated in the Company's accounting records.

As a result of this, the requirement of Schedule I of the Companies Act 2006 *The Large and Medium-sized Companies and Groups (Account and Reports) Regulations 2008* (SI 2008 No. 410) is to write down the investment value accordingly and charge the reduction in value as a loss in the Company's profit and loss account. The directors considered, however, that as the transaction was between two wholly owned subsidiaries there had been no overall loss to the Company and therefore reflecting such a charge in the profit and loss account would not give a true and fair view. Instead, to reflect the underlying substance of the transaction, this charge was re-allocated to the investment value of InterMoor Limited. The effect of this departure was to increase the Company's profit for that year and the value of investments by £7,504,000.

(ii) Trade and other debtors

Trade and other debtors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses.

(iii) Trade and other creditors

Trade and other creditors are recognised initially at fair value. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

(iv) Interest-bearing borrowings

Interest-bearing borrowings are recognised initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Notes (continued)

31 Accounting policies (continued)

Classification of financial instruments issued by the Company

Following the adoption of IAS 32, *Financial Instruments: Presentation*, financial instruments issued by the Company are treated as equity only to the extent they meet the following two conditions:

- (a) they include no contractual obligations upon the Company to deliver cash or other financial assets, or to exchange financial assets or financial liabilities with another party under conditions that are potentially unfavourable to the Company; and
- (b) where the instrument will or may be settled in the Company's own equity instruments, it is either a non-derivative that includes no obligation to deliver a variable number of the Company's own equity instruments, or is a derivative that will be settled by the Company exchanging a fixed amount of cash or other financial assets for a fixed number of its own equity instruments.

To the extent that this definition is not met, the proceeds of issue are classified as a financial liability. Where the instrument so classified takes the legal form of the Company's own shares, the amounts presented in these financial statements for called up share capital and share premium account exclude amounts in relation to those shares.

Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, adjusted for any tax payable or receivable in respect of previous years.

Deferred tax is provided on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The following temporary differences are not provided for: the initial recognition of assets or liabilities that affect neither accounting nor taxable profit other than in a business combination, and differences relating to investments in subsidiaries to the extent that they will probably not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the balance sheet date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised.

Foreign currency

Transactions in foreign currencies are translated to the Company's functional currency at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the balance sheet date are retranslated to the functional currency at the foreign exchange rate ruling at that date. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Foreign exchange differences arising on translation are recognised in the profit and loss account on a net basis.

Impairment

The carrying amounts of the Company's non-financial assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised in the profit and loss account whenever the carrying amount of an asset exceeds its estimated recoverable amount.

Notes (continued)

31 Accounting policies (continued)

Defined contribution pension plans

A defined contribution plan is a post-employment benefit plan under which the Company pays fixed contributions into a separate entity and has no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an expense in the profit and loss account in the periods during which services are rendered by employees.

Intra-group financial instruments

Where the Company enters into financial guarantee contracts to guarantee the indebtedness of other companies within its group, the company considers these to be insurance arrangements and accounts for them as such. In this respect, the company treats the guarantee contract as a contingent liability until such time as it becomes probable that the company will be required to make a payment under the guarantee.

Operating lease payments

Payments made under operating leases are recognised in the profit and loss account on a straight-line basis over the term of the lease. Lease incentives received are recognised in the profit and loss account as an integral part of the total lease expense.

The additions to investments arose as a result of the acquisition of Viking Seatech (Australia) Pty Ltd and PT Viking Seatech Indonesia for a combined value of £3,188,000 and increases in the share capital of various existing subsidiaries totalling £18,782,000.

The Company disposed of its entire shareholding in Mirage Machines Ltd of £1,432,000. The other disposal in the year resulted from a non-trading Singapore subsidiary entering the liquidation process before the year-end.

The increase in the impairment provision in the year resulted mainly from a further reduction in the value of the Company's indirect investments in certain subsidiaries where the respective underlying net asset values or anticipated future trading prospects (based on value-in-use calculations) did not support the investment value.

In assessing value-in-use, pre-tax cash flow projections for a five- or seven-year period, including financial budgets approved by the board covering a one-year period, have been used. Cash flows beyond the one-year period have been extrapolated based on estimated long-term average growth rates (typically 5 per cent) up to its level of maintainable earnings. The terminal value was then added to the value-in-use calculated. The growth rate in years two to five (or seven) does not exceed the anticipated long-term average growth rate for the market in which each company operates after taking account of the recovery from the recent cyclical decline in the oil and gas sector and the effect on current profitability levels.

The key inputs to these calculations are shown below:

Period on which management approved forecasts are based	1 Year
Average growth rate applied for years two to five/seven	5% to 49%
Growth rate applied to terminal value calculation	2%
Pre-tax discount rate	12% to 16%
